

August 10, 2021

Dear Sir,

Asahi Kasei Corporation

**Price Revision of Synthetic Rubber**

Asahi Kasei Corporation announces that it has decided to implement the following price revisions for synthetic rubber.

1. Product : B R, S B R (Asadene™、Tufdene™、Asaprene™)
2. Price Revision : \$230/MT or more
3. Date of revision : From factory shipment on August 16, 2021

4. The reason of this revision :

Not only have market prices of naphtha, butadiene, and styrene monomer risen, resulting in increased raw materials costs, but also the cost of utilities and logistics has risen.

In addition, the cost of maintaining and reinforcing facilities to meet the demand for these products has been rising.

Due to these circumstances, we have come to the decision that we have no choice but to implement price revisions in order to maintain a stable supply of products.

Regards,
